Tic-Tac-Toe

MAIN MENU:

This is what you will see upon launching the program

Here the user has two options.

First Option: Play with another (human) player.

Second Option: Play against a Smart AI (computer).

"PLAYER VS. PLAYER" selected from Main Menu:

Here the user has three options.

First Option: Play a Best of 3

Second Option: Play a Best of 5

Third Option: Play a custom amount of games.

*Selecting a Custom Range allows you to play a minimum of 1 and maximum of 9 games.

Tic-Tac-Toe

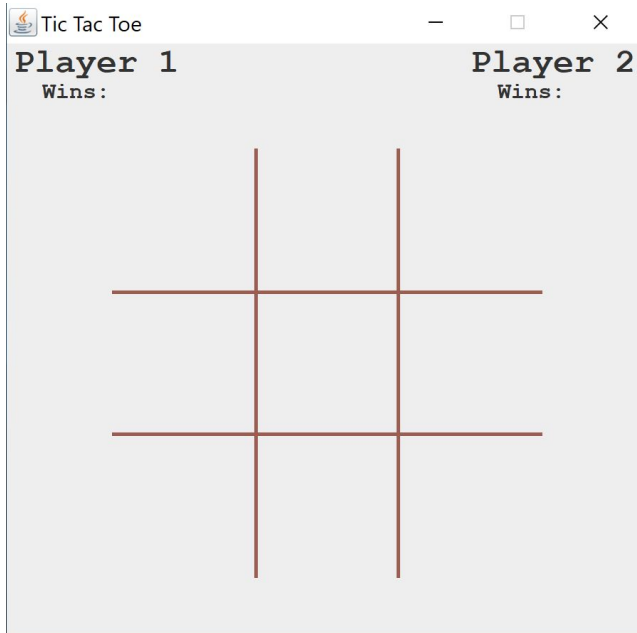

The screenshot shows a window titled "Tic Tac Toe". At the top, the title "Tic-Tac-Toe" is displayed in a large, orange, stylized font. Below the title, there is a white text input field and a blue button with the word "ENTER" in white capital letters. At the bottom of the window, the text "Input the desired number of games" is written in a red, monospaced font.

Selecting CUSTOM RANGE (Both Player vs. Player and Player vs. Computer):

Here you may enter how many games you would like to play.

Minimum: 1 Game(s)

Maximum: 9 Game(s)

The screenshot shows the same "Tic Tac Toe" window, but now it displays the game board. The board is a 3x3 grid of lines. In the top left corner, the text "Player 1" is displayed in a bold, black, monospaced font, with "Wins:" below it. In the top right corner, the text "Player 2" is displayed in a bold, black, monospaced font, with "Wins:" below it. The game board is a 3x3 grid of lines.

Game Board:

This is how the game board will look for both Player vs. Player and Player vs. Computer.

Simply click on the a tile to place your marker and get 3 in a row to win!

Score is kept in the top right and top left of the screen for player 1 and player 2 respectively.

Tic-Tac-Toe

Game Over Screen:

This screen will appear once a winner or tie has been declared.

Possible Displays:

Player 1 Wins!

Player 2 Wins!

TIE!

Pressing the "Play Again" button will allow you to start another game.

Pressing the "Main Menu" button will return you to the Main Menu and

Selecting "Player Vs. Computer" from Main Menu:

Option 1: Computer Plays First

Selecting this will have the computer place the first marker on the game board.

Option 2: Computer Plays Second

Selecting this will have the user (human) place the first marker.
